FLOOR PLAN
WINDOW REPLACEMENT

Window is a size-for-size replacement within the existing rough opening. No structural framing, header, jamb, sill, or opening dimensions are being modified. Replacement window shall be installed in accordance with the approved Florida Product Approval/NOA and manufacturer's installation requirements for the applicable wind zone and shall meet the required design pressures of the Florida Building Code, Residential. Separate engineered/sealed wind-load calculations are therefore not proposed. See Florida Building Commission Declaratory Statement DS 2026-025.
